

REMARKS

The material indicated to be of no patentable weight in claim 13 has been removed from the claim and has been added as dependent claim 25. This amendment does not necessarily indicate that the Applicant agrees with the position taken by the Examiner, but recognizes that the Examiner accepts that the patentability of claim 13 is not dependent on that material.

Claim 13 has been amended to include the subject matter of claim 16, indicated to be allowable.

New claim 26 corresponds to claim 14 which was indicated to be allowable, again with the material that was indicated to be of no patentable significance having been removed.

Therefore, the application should now be in condition for allowance and the Examiner's prompt action in accordance therewith is respectfully requested.

Respectfully submitted,

Date:

2/6/06
